Span from August 10th to October 9th.

I have clocked the minutes the dates the times durations the agent and highlighted investigate an investigation as to where one was led to believe that was taking place to which, on the 9th of October I was told this is not happening.

Issue lasting up to 5 hours 23 minutes spent on the phone 3 hours 49 and so long. I have taken all the captions where "investigate" or "investigation" exists, put it in its own column with the dates and the agent and aggregated the data, so it's clearly unravelled, so it is evident where issue or violation or breached took place how it progressed or didn't and what the present outcome stands as thi compensation, values of being calculated time, accrued and evaluations made to revolutionise and transform this into a fantastic opportunity for renewal growth partnership, seeking, not caught and compensation but renovation in partnership and regent of restorative Business relations
